## Donate Life NJ Online Registry

The Donate Life NJ registry enables all New Jersey residents, with a state-issued license or ID, age 18 or older, to register their decision to be an organ and tissue donor online. This decision qualifies as a legal document of gift that cannot be revoked by anyone but you. This secure registry is maintained by the Motor Vehicle Commission. If you did not say “yes” to organ donation during your last license/ID registration or renewal, you may register online now by following the instructions below. If you would like the words Organ Donor to appear on your NJ Driver License or State ID, you must request this change in person at a Motor Vehicle Agency. Six (6) points of identification and verification of your address will be required. Remember that you must confirm your decision each time you renew your license or State ID.

1. Go to [www.donatelifenj.org](http://www.donatelifenj.org) and click on the **Become a Donor** button in the center of the page.
2. This brings you to the secure Organ Donor page of the NJ Motor Vehicle Commission. Do not complete any fields, just click on **User ID Number Request** to get to next page.
3. Complete the required information: zip code, driver license number and social security number, then click **Continue** (you may have to scroll down).
4. Click on box to register online...and click on **Submit**.
5. Click on the circle to donate organs and then click on **Continue**.
6. Review this page and click on **Submit**.
7. The next page is your Organ Donor Confirmation page which you can print for your records.
